NET CONTENTS:

Sandoz 9412 Mousse [Light] contains natural pyrethrins which kill adult and immature fleas and ticks on your pet. Sandoz 9412 Mousse [Light] takes flea control a step further by utilizing PRECOR® [VIGREN®], an insect growth regulator. PRECOR IGR [VIGREN] breaks the life cycle by killing flea eggs, a major source of reinfestation, for 21 days. For complete flea and tick control, use Sandoz 9412 Mousse [Light] in conjunction with other [Sandoz/subregistrant brands] premise products.

DIRECTIONS FOR USE - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Shake can well before using. Apply mousse based on the pet's bodyweight. Dispense 1 second of spray per 2 pounds of body weight (1 second of spray equals a portion the size of a golf ball)[for example, an 8 pound cat needs 4 golf ball size portions for proper treatment] into the palm of your hand and work into the pet's fur starting with the head and working towards the tail. Rub the foam thoroughly into the pet's coat with fingertips. Brush when dry for a better coat appearance. Repeat only as necessary but not more than one time each week. Do not treat face, eyes, or genitals.

Consult a veterinarian before treating kittens or puppies less than 8 weeks old, or before using this product on pregnant or nursing females, old, sick or debilitated animals, or on animals undergoing drug or other pesticide treatment.

STORAGE & DISPOSAL: Do not store near heat or open flame. Store away from children and pets. Do not reuse empty container. Wrap can and put in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS - CAUTION: Harmful if swallowed. Avoid contact with eyes. After using, wash hands with soap and water.

HAZARDS TO ANIMALS: Some cats may be sensitive to products containing pyrethrins. Excessive salivation and paw flicking may occur; however, these effects are temporary and not harmful.

PHYSICAL HAZARDS: Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT IN HUMANS: If swallowed, call physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching the back of the throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If in eyes, flush with plenty of water. Get medical attention if irritation persists.
